

Manuel Portilla

Data Scientist & Analyst

Bucaramanga, COL • goli.developer@gmail.com • +57 3017978154 • [Portfolio](#) • [LinkedIn](#)

Professional Summary

Data Scientist & Analyst with 2+ years designing ETL pipelines in Python and SQL and crafting dashboards with Looker Studio. Targeting roles in data science, analytics, or business intelligence.

Experience

Blanko Producciones

Business Intelligence Analyst | Jan 2023 – Feb 2025

- Engineered ETL pipelines using Python (Pandas, NumPy) and SQL, consolidating multi-source datasets, and reducing processing latency by 30%.
- Developed Looker Studio dashboards and Google Sheets templates to track key performance metrics enabling data-driven strategy.
- Conducted audience segmentation using clustering, delivering targeted marketing insights that led to a 15% increase in conversion.
- Automated monthly reporting with Python scripting, improving operational efficiency.

Tools: Python (Pandas, NumPy), SQL, Excel, Looker Studio

Fryos Studios S.A.S

Game Data Analyst | Aug 2023 – Nov 2023

- Integrated telemetry tracking within Unity (C#) for analytics capture in mobile games.
- Used Python-based analysis to surface player behavior insights, contributing to a 12% increase in retention.
- Created analytics reports for international publishers like Garena and Kakao Games, aligning product metrics with decision-making.

Tools: C#, Unity Engine, Git, Hack n' Plan, Notion

Education

Universidad Autónoma de Bucaramanga (UNAB) - **Colombia**

Systems Engineer – bachelor's degree

Relevant Coursework: Software Development, Data Science, Cybersecurity, Agile Methodologies, Artificial Intelligence

Certifications: IBM Data Scientist, IBM Data Analyst, Cisco Cybersecurity

Skills

Programming Languages: Python, C, C#, R, JavaScript, Java

Databases: SQL, MongoDB, MySQL, PostgreSQL

Languages: English (C1), Spanish (Native)

Visualization: Looker studio, Matplotlib
