Professional Summary

Data Scientist & Analyst with experience in business intelligence, analytics, and data-driven decision support. Background in designing ETL pipelines using Python and SQL, developing dashboards, and performing exploratory and applied data analysis. Currently pursuing a Master's degree in Data Science, with strong foundations in statistics, machine learning, and cloud-based analytics.

Experience

Bussiness Intelligence Analyst

Cúcuta, Colombia

Blanko Producciones

Jan 2023 – May 2025

- Designed and maintained end-to-end **ETL** pipelines using **Python** and **SQL** to consolidate data from multiple operational and marketing sources.
- Cleaned, transformed, and validated datasets to ensure consistency and reliability for analytics and reporting.
- Built and maintained dashboards in **Looker Studio** and standardized **Google Sheets** templates to monitor **KPIs** and support business decision-making.
- Performed audience segmentation and exploratory analysis to identify behavioral patterns and support marketing strategy.

Systems Engineering Intern

Bucaramanga, Colombia

Fryos Studios S.A.S

Aug 2023 – Dec 2023

- Implemented in-game telemetry tracking using **Unity** to capture player behavior and gameplay events.
- Assisted in the collection, cleaning, and analysis of gameplay data using **Python** to support product evaluation and improvement.
- Collaborated with game designers and development teams to define analytics requirements and technical metrics.

Education

Universidad Autónoma de Bucaramanga

Bucaramanga, Colombia

Master's Degree in Data Science (in progress)

Sept 2025 – present

Universidad Autónoma de Bucaramanga

Bucaramanga, Colombia

B.Sc. in Systems Engineering

Jan 2019 – Apr 2024

Skills

Programming Languages: Python, C, R, Java, C#, Go

Query Languages: SQL

Libraries & Frameworks: Pandas, Numpy, Scikit-learn, matplotlib, Plotly, Dash, Seaborn, Spark

Data Visualization & BI Tools: Looker Studio

Cloud Platforms: AWS (S3, EC2 - Basic), GCP (BigQuery - Basic)

DevOps & Environment: Git, Linux

Collaboration & Productivity Tools: Github, Notion
